

AUTHOR SUBMISSION CHECKLIST

Scope

Journal of General Virology has been publishing peer-reviewed research for more than 50 years. We recognise the importance of virology as a unique discipline within microbiology, and actively collaborate with partners such as the International Committee on Taxonomy of Viruses (ICTV) to support the global virology community. The journal's diverse scope reflects the evolving nature of virology today, covering all aspects of animal, plant, insect, bacterial and fungal viruses, transmissible spongiform encephalopathies, molecular biology and immunology, virus–host interactions and antiviral compounds.

- Animal viruses: RNA viruses, DNA viruses, and retroviruses
- Insect viruses: RNA viruses and DNA viruses
- Plant viruses: RNA viruses and DNA viruses
- Others: fungal viruses, prokaryotic viruses, and TSE agents
- Microbiome and microbial ecology in health
- One Health

Author statements

All papers must contain:

- Funding statement
- Conflict of interest statement

For animal or human studies:

- Ethics approval and grant number
- Consent to publish (for studies containing identifying information about subjects)
- Consent to participate (if subjects recruited)

You and your Co-Authors

- Ensure all author details are correct and are the same in both your submitted manuscript and on Editorial Manager.
- Are your affiliations correct and as you expect them to appear if published?

Your submission

When submitting please upload:

- Your manuscript (Word document)
- Title page
- Abstract
- Main text
- References
- Line numbers
- Ensure all tables, figures and supplements are cited sequentially in your text
- Separate figure files
- Any supplementary material as a separate PDF (tables can be excel)

Access Types *(Journal of General Virology is a hybrid journal)*
